# Jonathan Sicherman

*Full Stack Software Developer*

**Full stack developer in the Greater New York City Area.** My coding journey began doing web focused marketing work for small businesses and seed round tech startups at a digital agency. During the process, it didn't take me long to fall in love with programming. Now, I am looking to expand my horizons and do great work for an fast, focused, and innovative company.

### Full Stack Developer

*Creative Minds Media Group, New York, NY*

**About:**

- Software Engineer at a digital marketing agency that sells web development services as well as photo, video, and social media management.
- Progressed into a full stack developer role over time spearheading frontend, backend, and dev ops development for the businesses clients.

**Work Portfolio:**

**CRIBS NYC**

- Developed and deployed a real estate agency website designed for a fast paced, New York City environment.
- **Features include:** CRUD, email functionality, user authentication, search functionality, and a backend database for agents and listings.

**Bam Bagel Baking Co.**

- Developed and deployed an online e-commerce store for a bagel shop in Syracuse, NY.
- **Features include:** CRUD, user authentication, "add to cart" functionality, payment integration, and pick up time scheduling for customers.

**Personal Project: eBay Spider**

- Developed an automated cloud-based API that scrapes eBay sports card sold data and

CSS
